

Task 04.02.01	Design sprint
Submission format	Link to XD prototype
Feedback format	Approved/Not Approved on FRONTER
Assessment by	IDWH, KMAM, JEC

Deadline
06/12/18 @ 22:00
11/12/18

## Description of the task

### Description of the task:

You are going to develop a prototype of an improved ( part of) Fronter - according to the functionality/feature you have decided to innovate. Your point of departure will be a formulated long term goal and a specific target audience - all decided upon on day one of the design sprint week. The final submission will be an XD prototype.

You are going to work in groups appointed by the teachers. Group size: 3-5. The group will work together in different ways during the sprint - and you will need to build individual XD prototypes.

The prototypes should be build upon the work and decisions made during the sprint process BUT the XD prototype has to be made individually and submitted as an individual submission.

Throughout the process you need to document it all.

### Proces:

- Map
- Sketch
- Decide
- Prototype
- Test

### Prototype Requirements

- Manufactured in Adobe XD
- The prototype description must cover the "user flows" that you have selected
- It must show "a user flow" that primarily meets the customer's needs
- Individual hand-in

### Documentation

Your work and your workflow - represented by e.g. pictures of al your design sprint task - must be added to the Theme Documentation ( 04.04.02) that is going to be submitted during the last week of the theme.

### Submission

**Where:** Fronter in the delivery folder "04.02.01 - Design Sprint".

**When:** Thursday 6th of December before 22:00
