Task 04.03.01	Web prototype	Deadline
Submission format	Link to web prototype on your GitHub repository	13/12/18 @ 22:00
Feedback format	Approved/Not Approved on FRONTER	18/12/18
Assessment by	ALE + JSHA	

Description of the task

This week you should code a functional digital solution (HTML/CSS prototype) based on the XD prototype you produced last week.

Requirements:

- Hand coded HTML, CSS, JS hosted on GitHub and your own domain.
- Must contain at least one form with different input types.
- Must use semantic HTML.
- Must include one or more UI-animation(s).
- Must be coded and styled for mobile devices.
- Must follow / be based on KEA's design guide.
- Must have at least one functional user flow with tasks and subtasks.

Git / GitHub

- Hand in a link to your GitHub repository.

Documentation of your work process
(should be part of the 04.04.02. hand in "Theme documentation")

- Tests of your web prototype, e.g:
    - Performance
    - Code validation (HTML, CSS, JS)
    - Google Lighthouse
    - 5-second test
    - Trunk test
    - Think aloud tests
    - Other tests..?
- You must conduct minimum one technical test and one user test.
- Adjustments of your prototype.
